**Bio**

Alex Tomb aka Alexis Toumpouris was born in 1985 and started djing since the age of 16. Alex had various appearances in Cyprus and London such as at the Gallery - Turnmills, Unit 7, and the Yacht Club. Alex started studies on Music Technology in the UK, as well as music production two years ago. He released so far remixes and singles on Elektrotribe Records and more to come soon...

"I love techno music so that's what I'm creating. My passion is mainly bass lines, surrounded by dark minimal melodies and percussion, trying to reach as dark as possible. Breakdowns are my obsession... When spooky atmospheres and mysterious melodies begin to sink through to your subconscious, hypnotizing, for as long as you can take it.

As a Dj I like to lead listeners through a trip, layering bass line over bass line into an abyss of obscurity.

The style of music I'm playing and producing can be described as mainly techno with a minimal approach on elements. It is heavily dark and hypnotic without knowing what to expect... "
