Moog Conspiracy's music is a finely adjusted mix of techno, minimal & house with a groovy club drive. His musical influences refers in big part to the Berlin Techno Stage, and to the early Detroit sounds. The House influences have been integrated in his music in the past years and can be heard in his new studio album and last Eps. Ambient and abstract sounds are also appearing now and then, to combine with the groove fundamentals to create a magical soundscape.

Romain Favre started playing music at 6 years old as a drummer, marked by 10 years of involvement in the french metal stage. Since then he walks on the path of constant improvement. Always deep and dark, he removes the hearts and souls with his minimalist electro. A strong techno beat, precise and acute; serpentine synthesizer melodies; a hate of obvious structures; destabilising noises: all an atmosphere that he creates, to make the listener rise from ecstatic heights to the black depths of human spirit. More than a DJ, he's a real creator, a true artist with a vision and a goal: transform music and let hearts shake.

Moog Conspiracy name is reference in Berlin, where he performs regularly in most of the locations of the city, from the Weekend Club on the top of Alexanderplatz, to Sisyphos, Kater Holzig, Maria, MIKZ and numerous amazing off locations that does the unique charm of german capital.

Moog Conspiracy has shared the decks with international acts & berlin heads like Mandy, Acid Pauli, Jack The Raper, Namito, Axel Bartsch, Daniel Dreier, Jalebee Cartel, Spektre, Skinnerbox, Abe Duke, Matador, Miro Pajic, Demir & Seymen, Asem Shama , Djuma Soundsystem, Camea, Tim Xavier, Pierce, Benjamin Fehr, Sven Dose, Ryan Davis, Max Cooper, Thomas Schumacher, Smash Tv ...

In 2011 after a numerous collaborations & Tours with his Elektrotribe partner in crime Breger, he founds the **FALLING COWS Band** which is gaining hearts of music lovers in Germany & abroad.
